Summary

Data Analyst aspiring professional with 3+ years of experience in Telecom/Network Drive Testing(RF Engineer), transitioning into Data Analytics. Skilled in **SQL, Python, Pandas, NumPy, Power BI, Tableau, Advanced Excel, and Statistics.** Experienced in working with **2000+ sites** telecom datasets, analyzing network performance KPIs, identifying trends, and generating actionable insights. Strong understanding of data cleaning, transformation, visualization, dashboard development, and business reporting.

Professional Experience

RF Engineer,
Covenant Tel Group, Client: du (Emirates Integrated Telecommunications Company)

11/2024 – Present
Abu Dhabi,UAE

- Analyzed **2000+ sites**,large telecom datasets including RSRP, SINR, RSRQ, RSSI, throughput, and mobility KPIs to identify network performance issues and trends.
- Performed data cleaning, preprocessing, KPI analysis, and reporting to support network-performance decisions.
- Built analytical reports and dashboards to monitor KPIs and communicate network performance insights.
- Executed NR/LTE SCFT, SSCVT, and cluster drive tests to validate 4G/5G network performance against operator KPIs and technical standards.
- Analyzed 5G SCFT results for designated sites, identified performance gaps, and supported corrective actions.
- Conducted field surveys and parameter verification for site hardware, configuration, sector allocation, antenna attributes, and design compliance.
- Optimized coverage by assessing antenna azimuth, mechanical/electrical tilt, antenna height, tower alignment, and site coordinates.
- Verified sector allocations, identified sector swaps and incorrect azimuths, and supported configuration corrections.
- Validated handover definitions and investigated field-level mobility issues to improve inter-cell transitions and network stability.
- Executed cluster-level optimization using XCAL to improve throughput, coverage, and mobility KPIs.
- Supported coverage optimization through antenna azimuth, tilt, antenna/tower height, and site-coordinate adjustments.
- Verified site coordinates and sector allocations, identified sector swaps, corrected azimuth issues, and ensured appropriate mechanical tilt settings.
- Performed handover testing and coordinated cross-functional teams to align field activities with project deliverables.
- Managed day-to-day team activities, performance tracking, issue resolution, and workflow coordination.

Senior Engineer, Telecom Network Solution Pvt. Ltd.

09/2024 – 10/2024
Bangalore,India

- Prepared NR/LTE SCFT, SSCVT, and cluster drive-test reports and maintained Site-Forge updates for project tracking.
- Analyzed 5G SCFT data using Vuze to identify performance deviations and improvement opportunities. • Monitored RSRP, RSSI, SINR, RSRQ, and GPS connectivity to assess network reliability and performance consistency.

- Generated LTE coverage plots and statistics for PCI, RSRP, RSRQ, SINR, DL/UL throughput, ATTACH, DETACH, PING, CSFB, HO Delay, and Inter/Intra-HO performance.
- Analyzed VoLTE KPIs including MO/MT call flow, jitter, SRVCC, and mobility KPIs to evaluate voice-service quality.
- Monitored RF KPIs including RSRP, RSRQ, SINR, and throughput during field and cluster testing.
- Led bridge calls with drive-test engineers and coordinated multi-team activities for synchronized test execution.
- Prepared test plans, interpreted product specifications, and investigated field-level failures for rapid resolution.
- Documented failure scenarios and executed test cycles according to customer defined requirements.
- Validated site configurations including power settings, antenna attributes, PCI assignments, PCI clashes, and azimuth correctness before drive testing.
- Diagnosed PCI swaps, coverage gaps, handover failures, and RRU-related hardware issues and supported fault rectification.
- Executed Single-Site Drive Tests and prepared Site Acceptance Report (SAR) formats with detailed drive-test analysis.
- Analyzed network RX quality/level metrics and supported RF re-planning in problematic areas to meet coverage KPIs.

TECHNICAL SKILLS

Programming

- Python, Pandas,
- NumPy,
- SQL,
- MYSQL

Business Intelligence & Visualization

- Power BI, DAX, Power Query,
- Matplotlib,
- Seaborn

Excel

- Advanced Excel
- Pivot Tables
- VLOOKUP,XLOOKUP
- INDEX-MATCH
- Power Pivot

Technologies

- 5G NR, 4G LTE, 3G, 2G

Drive-Test Tools

- TEMS,XCAL Vuze, Azenqos/AZQ, Site-Forge, PCTL Scanner

Data Analytics

- Data Cleaning,
- Data Transformation,
- Data Visualization,
- Data Validation,
- Data Modeling,
- Dashboard Development,
- KPI Analysis,
- Statistical Analysis,
- Business Reporting,
- ETL (Power Query)
- Exploratory Data Analysis (EDA)

Telecom / RF

- 2G/3G/4G/5G Drive Testing, LTE/NR, SCFT, SSCVT, Cluster Testing, Network Optimization, RF KPI Monitoring, Coverage Optimization

RF KPIs

- RSRP, RSRQ, RSSI, SINR, Throughput, Handover, VoLTE, PCI, CSFB, SRVCC, GPS Accuracy

RF Planning / Mapping

- Google Earth

CORE SKILLS

- Professional Technical Documentation,
- Team Coordination,
- Team Handling,
- Troubleshooting,
- Decision Making,
- Communication,
- Error Detection

Projects

Excel-Sales-Analytics [↗](#)

- **Project objective:**
- Create a [customer performance report](#) [↗](#)
- Conduct a comprehensive comparison between [market performance and sales targets](#) [↗](#)
- **Purpose of sales analytics:** Empower businesses to monitor and evaluate their sales activities and performance.
- **Importance of analyzing sales data:** Identify sales patterns and track key performance indicators (KPIs).
- **Role of reports:** Determine effective customer discounts, facilitate negotiations with consumers, and identify potential business expansion opportunities in promising countries.
- Create Profit and Loss (P&L) reports by [Fiscal Year](#) [↗](#) & [Months](#) [↗](#)
- Create Profit and Loss (P&L) reports by [Markets](#) [↗](#)
- **Purpose of sales analytics:** Evaluation of financial performance, support decision-making, and facilitate communication with stakeholders.
- **Importance of analyzing Finance data:** Aid in benchmarking against industry peers and previous periods Foundation for budgeting and forecasting.
- **Role of reports:** Align financial planning with strategic goals Instill confidence in the organization's financial outlook.

Education

B.Tech – Computer Science Engineering, *Rajiv Gandhi Proudyogiki Vishwavidyalaya* 2020 – 2023
Bhopal, India

Diploma – Electronics & Communication Engineering, 2017 – 2020
Maulana Azad National Urdu University(MANUU) Hyderabad, India

Languages

- HINDI
- ENGLISH
- URDU

Certificates

- Excel: Mother of Business Intelligence [↗](#)
- Get Job Ready: Power BI Data Analytics for All Levels 3.0 [↗](#)

Awards

CERTIFICATE OF APPRECIATION, *COVENANT TEL GROUP LLC* 05/2026
In recognition of his hard work and **outstanding performance** during Q1, **United Arab Emirates**
